

6th Form Independent Study Guide

Subject – **HISTORY**

- It is expected that you will study independently (excluding specific homework tasks such as essays etc.) for approximately 5 hours per week.
- You could produce written summaries of independent reading that has been undertaken.
- You could produce profiles of key individuals and key events.
- Timelines, structured around themes and key turning points, would be helpful.
- Create self-tests and revisit these regularly as part of ongoing revision techniques.
- Work collaboratively with other students outside of lessons when and where appropriate.
- Prepare in advance for the lesson where you already know what the content of that lesson will be.
- Practice summarising the key messages from interpretations/sources. Try to make judgments and analytical comments about these.
